SUMMARY

Creative and detail-oriented Front End Web Developer with hands-on experience building responsive and user-friendly web applications using **React, JavaScript, HTML, CSS**, and **Tailwind CSS**. Skilled in state management with **Redux Toolkit**, API integration using **Axios**, and version control with **Git & GitHub**. Passionate about writing clean code and continuously improving through real-world projects.

EXPERIENCE

- HTML & CSS – Built structured, styled web pages with semantic markup and modern styling practices.
- Tailwind CSS – Used utility-first classes to create responsive, attractive layouts efficiently.
- JavaScript – Understood core concepts: variables, functions, DOM manipulation.
- React – Developed projects using components, props, and state for dynamic UIs.
- Git & GitHub – Used Git for version control and GitHub for code sharing and collaboration.
- Learning Mindset – Continuously improving through self-driven practice and real-world builds.
